

## Drop n' Prep

Do you have a child that will be starting Preschool or Kindergarten soon?

This drop off class will help your toddler get ready for their time away from you and begin to learn in a school-like structure. This class focuses on the emotional and social impact of being dropped off to help ease the transition for you and your child. The class promotes gross and fine motor skill development through crafts, indoor gym time and outdoor play, while also developing listening skills with instructor-led activities and story-time. We also have snack time (snack provided by parents). Children do not need to be fully potty trained, but they must be aware of the potty and it's purpose and willing to try to use it everyday.
